## INCORRECT WAY TO CONNECT IMIRA DO NOT CONNECT YOUR COMPUTER DIRECTLY TO IMIRA FOR THE INSTALLATION PROCESS.

## CORRECT WAY TO CONNECT IMIRA

MAKE SURE TO CONNECT BOTH YOUR COMPUTER AND IMIRA TO THE SAME WI-FI NETWORK.

...

SERVER INSTALLATION

### 1.1 INSTALL SERVER SOFTWARE

Installation Package:

- iMiraServer
- i-Maker2

To start off with the server software installation, double click on "iMiraServer".

#### Note:

- Please make sure that your computer is connected to a Wi-Fi Network.
- iMira2 servers only work with Windows.

ingere B

#### Step 1:

Choose your language, click "Ok".

#### Step 2:

• System Description, click "Next".

SERVER INSTALLATION

## IMPORTANT DETAILS

 Setting Server IP Make sure to have a regular mouse connected to the USB port of your iMira.

Right click anywhere on the screen to access the settings menu.

Click on "Server IP" and enter the same OPTOEL Server IP you copied in Step 8 of this manual.

÷Β

Click "Confirm" and make sure that the "Status" has the message "Connection Succeed".

Right click anywhere on the screen again to go back to your home page.
